

Building a safe workplace!

Emerging issues & how to prepare

Roger Guy Baguley

Work Safety!...

**...through on the job Health & Safety
Training**

What are our safety tools?

- OHS&E Manuals
- Safety polices – working hazard free
- Safety shoe policy
- Regular OHS&E Inspections & minutes
- Risk Assessment
- Safety training – WHMIS, Fall Arrest, First Aid, Propane, Fork lift, etc
- Regular Safety Meeting – like today's
- Confirming our subs are legally compliant

What else can we do?

- Do daily inspections
- Correct on site hazardous issues
- Insist that safety issues are addressed quickly
- Have a trained Safety Committee
- Ensure everyone on site is using their personal safety protective devices
- Request proof of certification
- Know OHS&E legislation
- Be proactive
- Keep daily safety records
- Complete WSIB form when accident happen

What new?

- Bill C-45 – how does this impact me?
- How can I protect myself?
- What do I need to know?
- Document safety issues
- Stay alert!

...thank you for your attention!

*Have a Safe
& Happy
Holiday Season!*
